KEREN HAYESOD-UIA

Dear Friends,

The year 2023 is etched into Israel's history and the hearts of the Jewish people as a year of tremendous joy as well as immense grief. Marking Israel's 75th anniversary, the celebrations were overshadowed by the most murderous pogrom on Jews since the Holocaust, which forever changed the landscape of our homeland. Immediately after October 7 and since, your magnanimous outpouring of support and solidarity brought light and hope to the people of Israel while enabling us at Keren Hayesod-UIA to immediately spring into action, channeling your contributions through our support pipeline to local projects and authorities to aid Israel's most vulnerable in their hour of need.

Although disaster overwhelmed us in 2023, Israel's resilient spirit persists. Keren Hayesod-UIA's work for the people of Israel continues like never before, with scores of impactful initiatives furthering Israel's national priorities—nurturing the country's disadvantaged populations, bringing Jews to their rightful homeland, helping them integrate into Israeli society, and strengthening the unshakable bond between Israel and worldwide Diaspora Jewry.

On behalf of all of us at Keren Hayesod-UIA, we thank you from the bottom of our hearts for your invaluable support as we now pave the road toward healing and revitalizing the people and the State of Israel. Your ongoing commitment is vital as we strive to sustain and expand our impactful work together with you. Now, more than ever, your support plays a crucial role in shaping the future of our nation.

Sincerely,

ISRAEL AT WAR

Waking up to Hell

**Hamas turned Israel's
south into a living hell,
murdering over 1,200
Israelis in one day.**

6:30 A.M.

On October 7, 2023, the terrorist group Hamas launched a horrifying terror attack against Israel of unparalleled scope in the annals of our country. Accompanied by thousands of rockets fired in just one morning, some 3,000 Gazan terrorists overran Israel's southern border, hellbent on taking and destroying as many Israeli lives as they could; to traumatize and instill fear in our nation. Why? Because we're Jews.

Men, women, children, elderly—even infants—were shot, stabbed, burned, maimed, and raped to death in the most murderous, barbaric terror event since the Holocaust. Leaving over 13,000 people injured, Hamas reduced homes, cars, businesses, and entire communities to rubble. Almost 250 of our loved ones were taken hostage into Hamas' tunnels of darkness in Gaza, and the State of Israel immediately responded with a declaration of war, with Swords of Iron. Israel now finds itself in a war for its existence, to secure its borders, destroy the terrorist organization Hamas, and bring our hostages home.

On October 7, Hamas seized control over several communities and military targets in southern Israel. As the IDF, the police, and Israeli security forces fought to retake the South, the survivors of the attacks needed prompt, direct aid. Amid the turmoil, Keren Hayesod-UIA instantly sprung into action and launched our Brothers' Keeper emergency campaign. Fueled by your swift response and heartwarming outpouring of support, we were able to immediately funnel aid where most needed: KH-supported projects, municipalities, hospitals, rescue services, and more. Thanks to your help, Israeli hospitals managed to accommodate the sudden, massive influx of hundreds of wounded survivors following the attacks.

ALIYAH & ABSORPTION

Building the Homeland

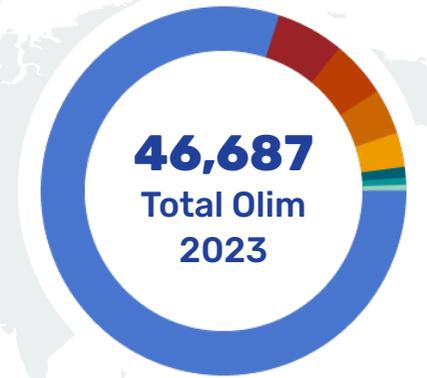

For over a century, Keren Hayesod-UIA has helped Jews make Israel their rightful homeland.

TOGETHER, WE ARE BRINGING OUR PEOPLE HOME.

Amid the turmoil of national trauma, we've seen over 2,400 new Olim make Israel their home just since October 7, and Keren Hayesod-UIA is as determined as ever to welcome them home and facilitate their integration to give them a fresh, prosperous start in Israel.

Absorption centers meet Olim's essential needs, easing their transition with Hebrew classes and preparatory academic and vocational programs to consolidate the newcomers' toolkit to help them integrate economically and culturally. Such programs include the Profession for Life retraining program and the Professional Licensing and Training Program.

NEXT GENERATION

Building Tomorrow

We help at-risk youth break the cycle of poverty and rebuild their self-confidence to forge a brighter future.

Youth in Israel's periphery are far removed from the economic and educational opportunities available in the country's center. Keren Hayesod-UIA supports diverse programs that trigger long-lasting change for Israeli adolescents.

- **Closing Social Gaps:** The devoted mentors of the **Youth Futures** program use positive social and educational enrichment to disadvantaged children, mainly from the periphery, to cultivate their talents and help them bridge significant educational and social gaps.
- **Guidance for Adolescents:** Four educational **Youth Villages** around Israel offer remedial education and emotional support in a warm atmosphere for disadvantaged teens. This rich extra-curricular program enhances potential school dropouts' sense of social responsibility and ensures they finish school and get tools for a productive future.
- **Bridging the Digital Divide:** The **Net@** program is among Israel's most effective after-school tech programs for upward social mobility. Over 2,000 pupils in grades 5-12 hone their computer network design, math, and English skills, drastically improving their competitiveness in the job market. **Net@** graduates become Cisco Systems-certified network technicians and gather valuable practical experience through community volunteering.
